**Subject: Best poster in Vilnius**

Dear dr Milenov,

As you know, the poster presented in Vilnius during the last MARS Conference, entitled 'Use of LPIS and Copernicus data in the elaboration of trans-border reference land cover datasets' (P.Milenov et al.) was awarded as best poster. As this poster is the results of collaboration between your agency and ReSAC, we deemed appropriate to provide both organisations with the plate.

Best regards

PIZZIOL Paolo

CC. Pavel Milenov (ReSAC)
